## ABOUT ME

I am a software engineer experienced in Java EE programming. After 7 years of professional life in application development, I find it easy to integrate new projects and quickly acquire new knowledge on new subjects. I consider myself a dynamic, versatile and autodidact person and that allows me to be a very good team player. I like sharing the developer experience and it motivates me to move towards the professions of "tech leader", "team leader" or "scrum master".
